Fitness, sports promotion, and

entertainment

got bootcamp? was developed to bring the FITNESS aspect of Consortium, LLC. to life. Our nationally certified instructors realize that if you don't change the inside, whatever changes you do make on the outside won't last. While working with our personal training clients we noticed women and men were tapping in on other levels. People were realizing, as they were asked to perform physically, that it was challenging their mental, spiritual (inner self/voice) and emotional parts. got bootcamp? is geared to changing the 'WHOLE' person. When you train with us you will come to embrace a LIFESTYLE change on all levels—physical (the gateway), mental, spiritual (inner voice/self) and emotional.
